# LEVERAGING EXISTING DATA AND ANALYTIC METHODS FOR HEALTH DISPARITIES RESEARCH RELATED TO AGING, ALZHEIMER'S DISEASE AND RELATED DEMENTIA

ORGANIZED BY: Igor Akushevich (Duke University), Carl V. Hill (Alzheimer's Association)

Do not miss out on the opportunity to join us for the workshop series aimed to improve the understanding of how existing analytic methods and data can be leveraged to make progress in understanding the causes and mechanisms of health-related disparities in Alzheimer's Disease, related dementias and other prominent age-related diseases. Topics will be organized around the NIA/NIH and Alzheimer's Association's vision of future perspectives in ageing research including a range of academic topics such as:

- Advanced analytic methods
- Disparities in treatment and health outcomes
- Perspectives in health disparities research
