

From Your Child's Teacher [Insert Name of Teacher]

Date: _____

Dear Parents

I would like for you to tell me about your child. You can tell me anything that you think will help me understand your child better, how he/she learns best, and what he/she likes to do when not in school. Some things that will help me develop teaching activities that will help your child learn in a more productive way are listed below. Does your child:

- Learn quickly and remember things easily?
- Like to read or have you read to him or her?
- Seem mature for his or her age?
- Experiment to solve problems?
- Seem sensitive?
- Enjoy playing with older children?
- Enjoy puzzles, mazes, and/or numbers?
- Question authority?
- Seem to get bored easily?
- Show talent in music, art, dance, or drama?
- Display a sense of humor?
- Collect and organize rocks, insects, and other things?

What interests does your child have outside of school? Interests can include: Sports, art, music, nature such as collecting insects, leaves, or rocks, playing with pets, playing games or solving puzzles, playing electronic games, watching television, or being involved with many other types of activities.

I would like to discuss some of these things with you at a parent conference or you can write me a letter about your child. Or you can tell me about your child by recording a tape. Please indicate which you would like to do and I will make arrangements for one of the following:

_____ Set up a parent conference for me to discuss things that interest my child.

_____ Have a tape recorder and tape sent home so that I can record a story about my child.

_____ I will write a letter to the teacher to help with understanding my child.

Please sign letter and return by your child. _____
