

Duke-UNC Alzheimer's  
Disease Research Center

# All Hands Scientific Talk

seminar series

May 16, 2024 | 5:00PM - 7:00PM | University Tower

## Obesity, Cerebral Energetics and Implications for Alzheimer's Disease

### SPEAKER

**Dr. Janice Hwang**  
Professor & Division Chief of Endocrinology and  
Metabolism at UNC - Chapel Hill

Dr. Hwang is chief of the Division of Endocrinology and Metabolism at UNC-Chapel Hill. Dr. Hwang's academic interests are at the intersection of metabolism and neuroscience. Her research focuses on using advanced brain imaging modalities such as functional MRI and magnetic resonance spectroscopy coupled with classic investigative techniques in metabolism to understand the effects of diabetes and obesity on the brain.
