SHERO

Program for Women in Internal Medicine
Duke Department of Medicine

September is national Women in Medicine Month, and the Department of Medicine is proud to participate in highlighting the accomplishments of women physicians, scientists, educators, and leaders in medicine.

Join us in honoring our colleagues. Nominate the women who inspire you, and we will celebrate them throughout the month.

Watch [this page](#) for an updated Shero list.

SAVE THE DATE! Duke Digital Health Week 2020 is Sept 21-24
<https://www.mag.mobile.duke.edu/events>

The Duke Center for Research to Advance Healthcare Equity (REACH Equity) is seeking candidates interested in serving as co-leader of its Research, Education, and Training (RET) Subcore.

The RET Subcore is responsible for: (1) Facilitating opportunities for health disparities investigators across the campus at all levels (students, trainees, faculty) to share their work, find collaborators, and identify mentors or mentees. (2) Administer programs to support research education and fund small pilot awards related to the Center's theme.

Programs currently led by the RET Subcore include:

- REACH Equity Summer Undergraduate Research Program (RESURP): An eight-week summer undergraduate health disparities education and mentored research program
- Research Voucher, Research Scholars Development, Transdisciplinary Think Tank pilot award programs which provide funding for faculty and trainees conducting research related to the Center's theme
- RWIP: Bi-monthly Research Works in Progress interactive seminar series
- Annual Health Disparities Research Colloquium

Additional administrative duties include participation in monthly Executive Operating Committee meetings, annual Internal Advisory Board, Stakeholder Advisory Board, and Steering Committee meetings, and other activities related to achieving the Center's aims. Faculty selected for this position will co-lead the core with Dr. Kevin Thomas and work closely with the REACH Equity Director, Dr. Kimberly Johnson, to continue current activities and expand activities of the RET Subcore in response to increased interest in health disparities research among trainees and faculty across the campus. The position includes funding to support time associated with the role (approximately 10% effort support).

For more information on the RET Subcore, please visit: <https://sites.duke.edu/reachequity/cores/research-education-training-subcore/>

Eligibility Criteria:

- Assistant or Associate Professor in any Department, Division, Center, or School

- MD or PhD or equivalent
- Any discipline
- Clinical research experience, preferably in health disparities

If you are interested, please submit your CV and a letter describing your interest in the position and detailing relevant experience (prior leadership roles, research experience, research education and training experience, mentorship, etc.) by October 2 to Cheryl Miller, cheryl.j.miller@duke.edu

REACH Equity faculty will interview a small number of applicants. While there is some flexibility, selected candidate may start position as early as November 1.

Please contact Cheryl Miller for more information: cheryl.j.miller@duke.edu

ADVANCE-UP

The **ADVANCE-UP (Academic DeVelopment, Advocacy, Networking, Coaching and Education for Underrepresented Populations)** program aims to provide unique enrichment activities designed to focus on challenges underrepresented racial and ethnic faculty (UREF) encounter in academic medical centers. ADVANCE-UP ultimately seeks to create a network of scholars that will enhance the sense of community among underrepresented faculty, foster timely promotion, and increase representation in leadership positions.

ADVANCE-UP

Apply now for the 2021 ADVANCE-UP Program.

Applications are Due October 9, 2020.
