

CURRICULUM VITAE

Sarah W. Cooley

Division of Earth and Climate Sciences
Nicholas School of the Environment
Duke University
sarah.cooley@duke.edu | [COOL Lab Website](#)

Professional Appointments

Assistant Professor Division of Earth and Climate Sciences Nicholas School of the Environment, Duke University	2024-present
Assistant Professor Department of Geography, University of Oregon	2021-2024 <i>*maternity leave Fall 2023</i>
Postdoctoral Scholar and Stanford Science Fellow Department of Earth System Science, Stanford University	2020-2021

Education

2020	PhD in Earth, Environmental and Planetary Sciences, Brown University Graduate Affiliate of the Institute at Brown for Environment and Society PhD Student in Geography at UCLA, 2016-2017. Advisor: Prof. Laurence C. Smith. Thesis: <i>New insights into Arctic environmental change from high-temporal resolution satellite remote sensing</i>
2016	MPhil in Polar Studies, University of Cambridge Awarded with Distinction. Advisor: Dr. Poul Christoffersen. Thesis: <i>A 16-year record of supraglacial lake extent in West Greenland: analysis of inland expansion and rapid drainage events</i>
2015	BS in Geological Sciences, University of North Carolina at Chapel Hill Awarded with Highest Honors and Highest Distinction. Concentration in Geophysics, Minor in Mathematics. Thesis: <i>Observing spatial and temporal patterns in Arctic river ice breakup using MODIS imagery</i>

Awards

2021	NASA New Investigators Program in Earth Science Awardee
2020-2021	Stanford Science Fellowship – member of inaugural cohort of Stanford Science Fellows, a postdoctoral fellowship program across the natural sciences at Stanford
2017	AGU Outstanding Student Paper Award – Cryosphere Division
2017-2020	Planet Labs Research Ambassador
2017	UCLA Canadian Studies Fellowship

- 2015-2020 **National Science Foundation Graduate Research Fellowship**
- 2015-2016 **Gates Cambridge Scholarship**
- 2015 **Op White Award** – UNC Chancellor’s Award for the outstanding student in Geological Sciences
- 2015 **First Prize Undergraduate Presentation** – UNC Geoscience Research Symposium
- 2014 **Phi Beta Kappa**
- 2011-2015 **Morehead-Cain Scholarship** – the US’s oldest full merit scholarship and funded summer enrichment program
- 2011-2015 **National Merit Scholar**

Peer-Reviewed Publications

ORCID - Google Scholar

*Student Author +Postdoc Author

In Review or In Revision:

Funding

Current Grants:

- 2024-2029** **European Research Council, Advanced Grants:** *Reconceptualising climate impacts from the bottom-up: An ethnoclimatology of climate risk in a rapidly warming Arctic (ETHNO-CLIM)*
 PI: James Ford (University of Leeds, UK), Co-Is: Sarah Cooley (Duke), Iestyn Woolway (University of Bangor, UK)
Total Award: €2.5 million (\$209,888 to Duke)

- 2024-2028 National Aeronautics and Space Administration (NASA), Surface Water and Ocean Topography (SWOT) Science Team:** *Resolving Key Outstanding Questions in Arctic Surface Water Dynamics using SWOT*
 PI: Sarah Cooley (Duke)
Total Award: \$909,347 (\$909,347 to Duke)
- 2024-2026 British Academy, Knowledge Frontiers: International Interdisciplinary Research:** *From the floe edge: Understanding and visualising local sea ice conditions in Kinngait, Nunavut*
 PI: Isabelle Gapp (Aberdeen), Co-PI: Sarah Cooley (Duke),
Total Award: \$331,112 (\$88,514 to Duke)
- 2024-2026 National Aeronautics and Space Administration (NASA), Commercial SmallSat Data Analysis:** *New insights into high resolution lake ice phenology in Arctic wetlands using Planet imagery*
 PI: Sarah Cooley (Duke)
Total Award: \$253,909 (\$253,909 to Duke)
- 2024-2025 National Science Foundation (NSF), Office of Polar Programs Postdoctoral Fellowship:** *Long-term Arctic lake area change: reducing uncertainty and paving a new path forward*
 PI: Elizabeth Webb (postdoc), Mentor: Sarah Cooley (UO/Duke)
Total Award: \$354,026 (\$354,026 to UO/Duke)
- 2023-2026 National Aeronautics and Space Administration (NASA), Future Investigators in Earth and Space Science and Technology (FINESST):** *Harmonizing satellite sensors to improve the temporal resolution of SWOT river observations*
 PI: Sarah Cooley (UO), Future Investigator: Eric Levenson.
Total Award: \$150,000 (\$150,000 to UO)
- 2023-2026 National Aeronautics and Space Administration (NASA), Studies with ICESat-2:** *Retrieval of glacier ice and snow properties over the Greenland Ice Sheet from ICESat-2*
 PI: Jonathan Ryan (UO), Co-PIs Kelly Gleason (Portland State), Markus Allgaier (North Dakota), Co-I: Sarah Cooley (UO).
Total Award: \$397,918 (\$64,317 to UO)
- 2021-2024 National Aeronautics and Space Administration (NASA), New (Early Career) Investigator Program in Earth Science:** *Leveraging new satellite technologies to constrain feedbacks between surface water, permafrost and carbon emissions in the Arctic*
 PI: Sarah Cooley (UO).
Total Award: \$386,092 (\$386,092 to UO)

Completed Grants:

- 2023-2024 National Aeronautics and Space Administration (NASA), Commercial SmallSat Data Analysis:** *Evaluating the capabilities of ICEYE radar imagery for high-resolution mapping of surface water dynamics*
 PI: Sarah Cooley (UO), Co-PI: Jessica Fayne (Michigan).
Total Award: \$101,288 (\$75,673 to UO)
- 2023-2024 National Aeronautics and Space Administration (NASA), Commercial SmallSat Data Analysis:** *Evaluating the capabilities of Capella Space radar imagery for high-resolution mapping of surface water dynamics*
 PI: Sarah Cooley (UO), Co-PI: Jessica Fayne (Michigan).
Total Award: \$101,288 (\$75,673 to UO)
- 2021-2022 National Aeronautics and Space Administration (NASA), Commercial SmallSat Data Analysis:** *Evaluation of SmallSat data for mapping surface water resources*
 PI: Lincoln Pitcher (Colorado), Co-PIs: Sarah Cooley (UO), T. Pavelsky (UNC-Chapel Hill)
Total Award: \$193,974 (\$90,451 to UO)
- 2021-2022 University of Oregon, Renee James Seed Grant:** *Non-invasive diffuse optical imaging for characterization of glacier properties in the Cascades,*
 Team: Brian Smith, Markus Allgaier (Physics), Sarah Cooley, Jonathan Ryan (Geography).
Total Award: \$40,000
- 2020-2023 National Aeronautics and Space Administration (NASA), Studies with ICESat-2:** *Towards global characterization of inland water reservoir use from space*
 PI: Jonathan Ryan (UO), Co-PI: Laurence Smith (Brown), Co-I: Sarah Cooley (UO)
Total Award: \$363,554 (\$231,283 to UO)

Pending Grants:

- 2026-2030 National Aeronautics and Space Administration (NASA), FORTE Science Team,** *Understanding linkages between river, ice and coastal ocean processes in Northern Alaska*
 PI: Tamlin Pavelsky (UNC), Co-PI: Sarah Cooley (Duke)
Total Award: \$616,917 (\$304,009 to Duke)
- 2026-2027 National Aeronautics and Space Administration (NASA), Commercial Satellite Data Earth Science Research and Applications,** *Constraining surface water radiative feedbacks on the Greenland Ice Sheet using very high resolution imagery*
 PI: Sarah Cooley (Duke), Co-I: Jonathan Ryan (Duke)
Total Award: \$327,866 (327,866 to Duke)

Selected Conference Presentations

*Invited +Graduate Student Presenter

- 2024 +Huelbig, M., **S. Cooley**, and E. Levenson, Investigating Environmental Controls on Seasonal Lake Occurrence in Alaska, *AGU Fall Meeting, Washington, DC*
- 2024 +Levenson, E., and **S. Cooley**, The Timing and Magnitude of Pan-Arctic Seasonal Lake Area Fluctuations from 2016-2023, *AGU Fall Meeting, Washington, DC*

Invited Colloquia and Seminars

Total: 25 Invited Colloquia and Seminars

- Nov 2024 **University of North Carolina at Chapel Hill**, “Investigating climate-driven changes to sea ice at the community scale”, Department of Earth, Marine and Environmental Sciences, Chapel Hill, NC
- Apr 2024 **Duke University**, “From global to local: investigating climate-driven changes to sea ice at the community scale”, Nicholas School of the Environment, Durham, NC
- Mar 2023 **Georgetown University**, “New directions in observing surface water from space”, Earth Commons Program, Washington, DC
- Mar 2023 **University of Virginia**, “New directions in observing surface water from space”, Department of Environmental Sciences, Charlottesville, VA
- Mar 2023 **Permafrost Discovery Gateway Seminar**, “Leveraging novel satellite technologies to better understand permafrost surface-water feedbacks”, Virtual Talk
- Feb 2023 **Duquesne University**, “New directions in observing surface water from space”, Environmental Science Seminar, Virtual Talk
- Nov 2022 **University of Oregon**, “The SWOT Satellite Mission: from the Willamette Basin to Global Hydrology”, Department of Geography, Eugene, OR
- Oct 2022 **Oregon State University**, “New directions in observing surface water from space”, Water Resources Program Seminar, Corvallis, OR
- May 2022 **Stanford University**, “New directions in observing surface water from space”, Seminar, Department of Geophysics, Palo Alto, CA (virtual talk due to COVID-19)

- May 2022 **Oregon State University**, “New insights into community-scale changes in shorefast sea ice from satellite remote sensing”, Physics of Oceans and Atmospheres Seminar, Corvallis, OR
- Apr 2022 **University of Colorado Boulder**, “New directions in observing surface water from space”, Colloquium, Department of Geological Sciences, Boulder, CO
- Mar 2022 **University of Washington**, “New directions in observing surface water from space”, Colloquium, Department of Earth and Space Sciences, Seattle, WA
- Oct 2021 **Texas A&M University**, “New directions in observing surface water from space”, Colloquium, Department of Geography, College Station, TX
- Oct 2021 **University of Oregon**, “New directions in observing surface water from space”, Colloquium, Department of Earth Science, Eugene, OR
- Mar 2021 **Stanford University**, “New directions in observing surface water from space”, Seminar, Department of Earth System Science, Palo Alto, CA (virtual talk due to COVID-19)
- Oct 2020 **University of Manitoba**, “New insights into community-scale changes in shorefast sea ice from satellite remote sensing”, Center for Earth Observation Science Seminar, Winnipeg, Canada (virtual talk due to COVID-19)
- Feb 2020 **University of Illinois**, “Tracking high latitude hydrology from space: how advancing technologies allow us to see more than ever before”, Seminar, Department of Geology, Champaign-Urbana, IL
- Feb 2020 **University of Washington**, “Tracking high latitude surface water dynamics using CubeSat imagery and machine learning”, Satellite Image Analysis Seminar, eScience Institute, Seattle, WA
- Feb 2020 **University of Washington**, “New insights into community-scale changes in shorefast sea ice from satellite remote sensing”, Environmental Fluid Mechanics Seminar, Applied Physics Laboratory, Seattle, WA
- Jan 2020 **University of Oregon**, “Tracking high latitude hydrology from space: how advancing technologies allow us to see more than ever before”, Colloquium, Department of Geography, Eugene, OR
- Jan 2020 **University of Pittsburgh**, “Tracking high latitude hydrology from space: how advancing technologies allow us to see more than ever before”, Colloquium, Department of Geology and Environmental Science, Pittsburgh, PA
- Nov 2018 **NASA Surface Water Ocean Topography (SWOT) Cal/Val Workshop**, “Mapping Inundation Extent for SWOT Cal/Val”, Pasadena, CA

- Nov 2018 **Planet Labs**, “Tracking Arctic-Boreal Surface Water Dynamics using Planet Imagery”, San Francisco, CA
- May 2018 **NASA Inundation Extent Workshop**, “Mapping inundation extent using optical imagery”, Boulder, CO
- Apr 2017 **NASA Earth-to-Sky Climate Change Science Communication Conference**, “Draining lakes and melting ice: Changes in the hydrology of the Northwest Territories”, Yellowknife, NWT, Canada

Fieldwork

- Sept 2024 **Kinngait, Nunavut, Canada** – Community consultation visit to Kinngait to initiate research into the relationship between sea ice loss and Inuit art. Visited the art studio, met with community stakeholders, explored the local environment, and developed research plans in consultation with the local art co-op. Funded by British Academy Knowledge Frontiers Grant (PI I. Gapp, Co-PI Cooley)
- August 2022 **Willamette Valley, Oregon** – Instructor for the inaugural Surface Water Field School. Taught 19 graduate students from across the country about surface water measurements on lakes and rivers and how to conduct safe and inclusive field campaigns. Funded by CUAHSI and NASA.
- July 2022 **Willamette River, Oregon** – Participant in NASA SWOT calibration and validation test campaign measuring water survey elevation, slope and discharge on the Willamette River. Funded by NASA.
- June 2022 **Fairbanks, Alaska** – Led a field team performing GPS surveys of shorelines on the Tanana River and nearby lakes and deploying pressure transducers to validate SmallSat-derived water maps. Funded by NASA Grants #80NSSC21K0920 (PI Cooley) and 80NSSC21K1153 (PI Lincoln Pitcher, Co-PI Cooley).
- July 2021 **Fairbanks, Alaska** – Performed GPS surveys of shorelines on the Tanana River to validate SmallSat-derived water maps. Funded by Stanford Science Fellowship and NASA Grant #80NSSC21K115 (PI Lincoln Pitcher, Co-PI Cooley)
- Apr-May 2019 **Uummannaq, Greenland** – Part of an interdisciplinary team working on co-production of shorefast ice knowledge in Uummannaq Fjord, North Greenland. Funded by NSF Navigating the New Arctic Grant #1835473 (PI Jonathan Ryan) and a GSA Graduate Student Research Grant.
- March 2018 **Nunavut, Canada** – Participant in the inaugural Sentinel North International Arctic Field School in Iqaluit, Nunavut, Canada. Funded by an Institute at Brown for Environment and Society Graduate Travel and Training Grant.
- Jun-Aug 2017 **Northern Canada and Alaska** – Six weeks studying northern surface water as part of NASA’s Arctic Boreal Vulnerability Experiment (ABoVE). Performed ground validation for NASA AirSWOT and surveyed 50+ lakes across Saskatchewan, the

Northwest Territories and Alaska. Funded by NASA Grants #NNX17AC60A and #NNX16AH83G (PI Laurence Smith).

Jun-Aug 2016 **Kangerlussuaq, Greenland** – Six weeks studying the seasonal evolution of the surface hydrology of the ice sheet margin. Funded by NASA Grant #NNX14AH93G (PI Laurence Smith).

Jun-Aug 2013 **Juneau Icefield, Alaska and Canada** – Participant in the Juneau Icefield Research Program. Traversed the Juneau Icefield in Southeast Alaska and British Columbia and conducted independent research on surface strain rates on Taku Glacier. Funded by the Morehead-Cain Scholarship Program.

Teaching

Duke University, Durham, NC

Spring 2025 Instructor, ECS 206, Water and Climate (10 students)

University of Oregon, Eugene, OR

Spring 2024 Instructor, GEOG 425/525, Hydrology (16 students)

Spring 2023 Instructor, GEOG 425/525, Hydrology (22 students)

Fall 2022 Instructor, GEOG 607, Critical Remote Sensing Seminar (8 students)

Fall 2022 Instructor, GEOG 485/585, Remote Sensing I (27 students)

Summer 2022 Instructor, NASA/CUAHSI Surface Water Field School (20 students)

Spring 2022 Instructor, GEOG 425/525, Hydrology (21 students)

Winter 2022 Instructor, GEOG 485, Remote Sensing I (28 students)

Fall 2021 Instructor, GEOG 181, Our Digital Earth (90 students)

Mentoring

Postdoctoral Scholar Advised:

Elizabeth Webb – 2024-present

Awards: NSF Office of Polar Programs Postdoctoral Fellow

PhD Students Advised:

Ana Stringer (Duke) – 2024-present

Awards: NSF Graduate Research Fellow

Noah Jacobs (Duke) – 2024-present

Awards: NSF Graduate Research Fellow

Eric Levenson (Oregon) – 2021-present

Awards: NASA FINESST Fellow, AGU OSPA – Biogeosciences Division (2024), AGU OSPA – Hydrology Division (2024)

MS Students Advised:

Kelly Bonneville-Sexton (University of Oregon) – 2023-present

James Maze (University of Oregon) – 2023-2025

Maddie Huelbig (University of Oregon) – 2023-2025

Addison Pletcher (University of Oregon) – 2022-2024

Ian Van Dusen (University of Oregon) – 2021-2023

Undergraduate Students Advised:

Chloe Schueller (Duke), 2024-2025

Annie Cushman (Duke), 2024-2025

Catherine Fleming (Honors Thesis, University of Oregon), 2023-2024

Riley Chambers (Honors Thesis, University of Oregon), 2022-2023

Kelly Bonneville-Sexton (University of Oregon), 2022-2023

Graduate Student Committee Member:

Marissa Hughes (PhD, Earth Sciences, University of North Carolina at Chapel Hill) – 2025-present

Alex Simpson (PhD, Earth Sciences, University of Oregon) – 2023-present

Maxim Shapovalov (MS, Geography, University of Oregon) – 2022-2024

Devlin Rutherford (MS, Geography, University of Oregon) – 2022-2024

Chelsea Obeidy (PhD, Earth Sciences, University of Oregon) – 2022-2024

Nicole Abib (PhD, Earth Sciences, University of Oregon) – 2021-2024

Gui Aksit (PhD, Earth Sciences, University of Oregon) – 2021-2024

Becca Bussard (PhD, Earth Sciences, University of Oregon) – 2021-2024

Emily Hayden, (PhD, Earth and Ocean Sciences, Oregon State University) – 2021-present

Renee Nassif (MS, Earth Sciences, University of Oregon) – 2021-2023

Nate Klema (PhD, Earth Sciences, University of Oregon) – 2020-2023

Conference Sessions Convened

1. “Remote Sensing of the Earth’s Northern Landscapes”, *AGU Fall Meeting 2022*
2. “Remote Sensing, Modeling and Data Assimilation of the Terrestrial Water Cycle”, *AGU Fall Meeting 2022*
3. “Advances in Active Remote Sensing for Hydrology and Terrestrial Ecosystems”, *AGU Fall Meeting 2022*
4. “Surface Water Hydrology From SWOT, NISAR and ICESat-2”, *AGU Fall Meeting 2021*
5. “Remote Sensing of Hydrology and Environmental Change in the Cryosphere”, *AGU Fall Meeting 2019*

Workshops and Other Activities

- Invited Panelist for IEEE-GRSS Women Mentoring Women Program Proposal Writing Workshop, March 2024
- Participant in NSF-funded workshop “Integrating Remote Sensing, In Situ, And Physically-Based Modeling Approaches To Understand Global Lake Ice Dynamics” in Madison, WI, February 2023
- Organizer and Instructor, NASA-funded CUAHSI Surface Water Field School, Eugene, OR, August 2022
- Faculty mentor for the Karakoram International University, Pakistan - University of Oregon Cryosphere Research and Teaching Partnership (funded by the US State Department), mentoring Dr. Garee Khan of KIU, 2022-2023
