“Filling a lacuna in the scholarship on gender and the Arab Spring, these essays approach their topics from especially sophisticated, innovative, and engaging angles, putting forward new theories and methods for thinking about the intersections of politics, gender, revolution, and feminism. Given the major significance of women to the Arab Spring revolutions, this outstanding book is more urgent than ever.” — Nadine Naber, author of Arab America: Gender, Cultural Politics, and Activism

“Even though on the surface revolutions proceed as total events represented by overarching ‘people,’ they are marked by fragments and fractures. Focusing on gender and place, this book challenges such an all embracing image by uncovering the plurality of voices, interests, actions, and expectations that constitute the totality we call ‘revolution.’ As such it is a valuable contribution to the study of the Arab revolutions beyond the states, regimes, and formal institutions.” — Asef Bayat, Catherine and Bruce Bastian Professor of Global and Transnational Studies, University of Illinois, Urbana Champaign
