Sub-Capacity in the event planning

The screenshot displays the 'Nesne bakımı' (Object Maintenance) window in the IKU software. The window title bar includes menu items: Nesne, Düzenle, Git, Yardımcı programlar, Ayarlar, Sistem, Yardım. Below the title bar is a toolbar with various icons. The main area is titled 'Nesne bakımı' and contains a form with the following fields:

- Plan varyantı: 01 Yürürlükteki plan
- Nesne tipi: SE Eğitim ve toplantı paketi (highlighted with a red box)
- Nesne tn: 55754584
- Nesne kodu: MAT 101-A

Below the form are tabs: Etkin, Planlandı, Sunuldu, Teyit edildi, Reddedildi. The 'Etkin' tab is selected. The main content area is divided into two sections:

- Bilgi tipi tanımı**: A table with columns 'D..' and a list of information types. The 'Sube ek kontenjan vr.' row is highlighted with a red box and has a green checkmark in the 'D..' column.
- Dönem**: A section for selecting a period. It includes a radio button for 'Dönem', a date range from '01.01.1900' to '31.12.9999', and several radio button options: Bugün, Cari hafta, Tüm, Cari ay, Bugünden itib., Son hafta, Bugüne kadar, Son ay, Cari yıl.

At the bottom right, there is a yellow button labeled 'Seçim'. A red arrow points from the 'Sube ek kontenjan vr.' row to the 'Seçim' button. A red text annotation next to the arrow reads: 'New info type for SE object : "sub capacity data"'. The 'Seçim' button is also highlighted with a yellow background.
