**Name of Potential Opportunity:** PrEP stigma intern

**Name and titles of potential supervisor/s (and link to external-facing RTI expert page, if available):**

**Name:** Sarah Roberts, PhD  
**Title:** Research Epidemiologist, Women’s Global Health Imperative

**Name:** Miriam Hartmann  
**Title:** Public Health Analyst, Women’s Global Health Imperative

**Overview: (2-4 sentences)**

Develop protocol, study-specific procedures manual, and questionnaires for a new study on stigma around pre-exposure prophylaxis (PrEP) among adolescent girls and young women in Kenya. This internship would provide an excellent opportunity for a PhD student to learn about operationalizing and implementing research in international settings. There may be an opportunity for future engagement in data analysis.

**Preferred skills: (including foreign languages, programming languages, etc.)**

Research study management and implementation, questionnaire development, writing skills

**Number or Interns:** 1
