

Share and Compare

1. First, take 2-3 minutes to review your notes. Fill in blanks or add ideas you did not have time to write down while in class.
2. Turn to a neighbor and compare notes. Practice some of the following:
 - Ask questions and clarify areas where your notes differ.
 - Identify gaps - key ideas or supporting details that you did not record but your neighbor did.
 - Correct errors or misunderstandings. Perhaps identify what you want to bring to office hours.
 - Which ideas are most important?
 - Is there a narrative or argument coming through?

Note: The above was adapted from the University of West Florida's Center for University Teaching, Learning, and Assessment's Fall 2019 Teaching Tips.
