

Electronic Literature Works for #augrealities

Find your Name and Assigned Works. Be prepared to present your assigned works but please feel free to explore the rest. You will be writing an Electronic Literature Critique Blog this week so if you positively hate your assigned readings and do not want to write about them, you must still present them but you may choose others for your E-Lit Critique.

Note: We will not necessarily present in this order; we'll draw names from a [virtual hat](#) instead.
