

CFCI PreMiEr Accelerator

Driving research to impact

OVERVIEW

The Christensen Family Center for Innovation (CFCI) Accelerator was developed to assist university researchers move promising research results towards societal impact. Our inaugural cohort, below, will present their final pitch presentations on December 7th, 4pm.

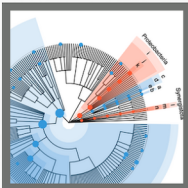

OUR TEAMS

This year, we have five exciting teams participating, each represented by a university scholar.

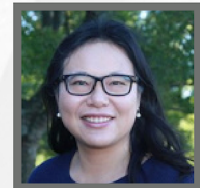

FoodSeq

Allowing food from yesterday
guide nutrition for tomorrow.

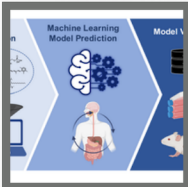

PlotMicrobiome

Microbiome data analysis made
simple, fast, & accurate.

BioLockJ

A systematic process for
reproducible research.

MetAI

Machine learning platform for drug
discovery in metabolites.

HydroCapture

Changing the way water samples
are collected.

Pitch Day

On December 7th, from 4:00 - 5:30pm the students will be giving their final pitch of the Accelerator. Research funding prizes will be made available to our top pitches.

We invite all to attend! Please see email for Zoom information.
