

EOS 202 - Atmosphere and Ocean Dynamics

Course Detail

Career	Undergraduate	
Units	1.00	
Grading Basis	Graded	
Course Components	Lecture	Required
Campus	Duke University	
Academic Group	Arts and Sciences	
Academic Organization	Earth & Ocean Sci	

Enrollment Information

Course Attribute	(R) Research (NS) Natural Sciences
-------------------------	---------------------------------------

Description

Introduction to the dynamics of ocean and atmospheric circulations, with particular emphasis on the global climate cycle. Prerequisites: Mathematics 21 and 122, Physics 141L or consent of instructor. Instructor: Lozier
