

We are looking for a highly motivated and skilled individual to work as a full-time pre-doctoral research assistant for a period of one year with an option to renew based on performance.

The research assistant will be based at Duke University in Durham, NC and work in close collaboration with Professor James Roberts and his coauthors on a number of projects related to market structure, competition, and health care.

Candidates with some research experience are preferred, especially those with experience in Stata, R, Python or Matlab. That being said, the position is organized so that the selected applicant will develop the necessary skills to thrive as a researcher in graduate school and beyond, regardless of their prior training. A strong work ethic, curiosity, self-motivation and a desire to learn are keys to success in this position.

The position offers competitive pay and benefits.

Start Date: July 1, 2021.
